Ram Yadav

IT Student | Networking & Cybersecurity | Passionate Tech Explorer

Motivated and detail-oriented undergraduate student with a strong foundation in computer networks, network security, and system administration. Proficient in configuring and troubleshooting routers, switches, and firewalls, with hands-on experience in tools like Wireshark, Cisco Packet Tracer, and Kali Linux. Currently expanding knowledge in ethical hacking and network penetration testing. Seeking an internship or entry-level position in networking or cybersecurity to apply my technical skills and contribute to secure and efficient network infrastructures while continuously learning and growing in the IT field.
